## Problem Solving Framework

Define the Problem	
What question(s) do you have?	
What is the problem about? What is it asking you to do?	
Analyze the Problem	
What do you <b>know/notice</b> from the problem scenario or previous lessons that can help solve the problem?	What concepts or information do you <b>need to know</b> in order to solve the problem?
Brainstorm Strategies for Solving the Problem	
What strategies might you use to solve the problem? How will you start the problem?
