THE NEW TECH SCHOOL MODEL IS BASED ON FOUR DESIGN PILLARS:

OUTCOMES THAT MATTER

Student outcomes for college, career, and civic life readiness

TEACHING THAT ENGAGES

Project and problem-based approach to instruction

CULTURE THAT EMPOWERS

School-wide culture of empowerment for students and adults

TECHNOLOGY THAT ENABLES

Use of technology for collaboration, access to information, and self-directed learning

ABOUT US

New Tech Network (NTN) is a design partner for comprehensive school change. We work closely with nearly 200 districts and schools to create innovative learning environments in 28 states. We are building a dynamic, perpetually learning network, and while we began our work at the high school level, we now support elementary, middle and high schools. Through a proven school model, a project-based learning (PBL) platform, and powerful professional development, we guide schools toward lasting change and ongoing improvement.
